

IRT-14

Automatic Straightening and Cutting Machine from coil

TECHNICAL AND PRODUCTION CHARACTERISTICS

| | |
|--|--------------------------------------|
| Wire diameter | 5 - 14 R 450 N/mm² |
| Lenght of straightened and cutt | 0,5 M - 99 M |
| Lenght cutt tolerance | ± 2 mm |
| Cutting system | hydraulic |
| Iron propulsion speed | 30 M / min. |
| Electrical voltage | 380 V / 50 Hz |
| Electrical components | Schneider |
| Installed power | 11 kW |
| Wire decoiler | capacity 1,2 tons |
