

TRADITIONAL FORMWORK PANELS MAKING WALLS WITH YELLOW PANELS

Fig 1

The start of the formwork is done directly from the floor by hooking the bracket to the spacer which is under the panel

Fig 2

After the other stirrups cling together other on the space to do desired height

Fig 3

At the end of the armature the stirrups are blocked by a wedge placed in the hole of the spacer

CHARACTERISTICS:

3 ply shuttering panels with and without edge protection metal are designed into 3 folds of the same thickness. The two outer plies and the transverse central fold are glued with waterproof glue. This construction enables virtually any swelling or shrinking of the panels.

BENEFIT :

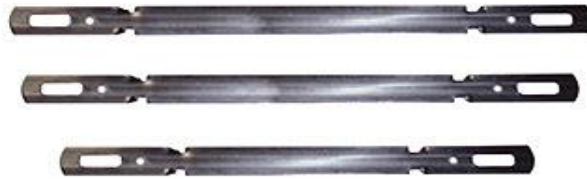

- Dimensional stability and dimensionally stable
- Economical because of time savings and the use of money to
- Long life guaranteed if the panels are well maintained
- Surface highly resistant thanks to a layer of synthetic resin impregnated hot
- Control of continuous quality production
- Also suitable for exposed concrete

INSTRUCTION FOR USE:

- 5 cm from the edge of each panel must put a spacer. Between these two spacers placed on the board must be positioned other spacers.
- Check the correct hooking carefully corners and calipers.
- Do not unload the concrete of an abrupt Manner. Pouring should be slow Especially at the base of the formwork.
- The cast should not always be done at the point of Saami of the frame. It takes time to change the position in time.
- For the actions of pouring the formwork must be more careful in the thinnest wall.
- The spacers should be used intact without pillars not to Reduce resistance to action.

The accessories necessary for the realization of a wall of 1 sqm with yellow panels:

- SPACER 20 cm (it depends on the thickness of the wall) - 6 pieces x sqm - 100 piece pack

- LARGE CORNER (2 parts spacer) - 2 pieces x sqm - 100 piece pack

- GALVANIZED STIRRUPS WITH HOOK 50 cm (5 pieces for each yellow panel m 2)
For a wall with a height of 2.50 to 3.00 m is 12 rooms at mc - making 40 pieces

- SPIRAL STIRRUPS HG 50 cm (7 pieces for each yellow panel m 2)
For a wall of a 2,50-3,00m height is 14-16 parts mc - 100 pieces clothing
