

SERIES: MOBILE**MODEL: EASY E.3.60**

Hourly production	60 mc/h
Number of bins	3 in LINE
Total storage capacity	30
Mixer Turbo TTM soft yield	TTM 2100/1.500 Lts

📖 Basic machine description :

N.1 AGGREGATES STORAGE GROUP type BW 3.10, galvanized :

- N.1 Main body divided into n. 3 bins with a total storage of 30 mc thickness 3 mm
- N.3 Unloading cones thick 4 mm with 1 pneumatic cylinder each one
- N.1 Electrical vibrator for sand hopper
- N.1 Extracting belt width 800 mm Length 6.200 mm capacity 310 mc/h
- N.1 Compressor with tank 500 lts 4 kw
- N.1 weighing hopper thickness 4 mm with 1 electrical vibrator
- N.1 weighing system kg 3.000 with 4 cells, CE

N.1 Mixing Group mod.TTM 2100 SKIP yield 1.500/1.200 lts

- Mixer mod. TTM 2100
- Support Structure by « balcony » with service platform and ladder
- Water batch by weight + N.1 Liter counter 1 ½ ”
- N.1 Cement weighing hopper 650 kgs with 1 cell

N.1 Control Group :

- Control Cabin 1.400 x 2.200 mm
- Control board « électromécanique »
- Software PLC Betoncontrol

N.1 Supplied Documentation :

- CE
- Handbook in mother tongue (English)
- Drawings and foundation plans

Options :

- Kit of accessories for cement silos
- Cement Silos diam. 2400 mm up to 60 Tons
- Cement Silos diam. 3500 sectors made up to 120 Tons
- Additive dosing system by weight
- Moisture control probe
- Software PC
